SUBJECT: Presidential Reports to the Congress on Arms Control

The fiscal year 1989 Defense Authorization Act mandates several arms control related reports by the President to the Congress. To facilitate their submission, the following due dates and responsible agencies are assigned. Since the reports are intended to reflect a considered Administration position, lead agencies are responsible for thorough interagency coordination.

Reports, due dates, responsible agencies, and applicable sections of the Authorization Act are:

Annual Report on Arms Control Strategy (Section 906) --
Office of the Secretary of Defense -- Due to NSC
November 21, 1988 and to Congress December 1, 1988

Report on Soviet ABM Capabilities and Activities (Section 907) -- Director of Central Intelligence -- Due to NSC
December 16, 1988 and to Congress January 1, 1989

Alternate Strategic Nuclear Force Postures (Section 908) --
Office of the Secretary of Defense -- Due to NSC
December 16, 1988; will be submitted to Congress not
later than January 6, 1989 (Congressionally mandated
due date is prior to the enactment of the Authorization
Bill)

Coordination of Verification Policy and Research and
Development Activities (Section 910) -- Arms Control
Verification Committee Analysis Group (DCI/ACDA
jointly) -- Due to NSC June 10, 1989 and to Congress
June 30, 1989

It is considered that the requirements of Section 904 to "inform Congress of the results" of the ABM Treaty review have been met by the briefings provided by ACDA Director Burns following the review. No formal report is required.

Due dates have been set as late as possible while still allowing time for necessary review and Presidential approval. These should not be exceeded.

Paul Schott Stevens
